

1953 - 1961 Valve Cover Seals

By Roy Braatz

Figure 1 shows the early valve cover support plate used on all steel valve covers. Notice the black rubber gasket that was also used to keep the oil from getting past the bolt threads. They're hard to come by in today's gasket set, but you can make them easily by using the plate as a pattern. Bottom design is '62 and later.

PICTURE OF POWER TOP SUPPORT THAT HOLDS CONTRAL VALVES AND MOTOR IN TRUNK AREA. 1956-62
